

Access to sexual and reproductive health-care services, including information and education services.

At the Medical Center, doctors and nurses offer services and counseling to students and both academic and non-academic staff when they are unwell. They also provide guidance on healthy lifestyles, nutrition, and behaviors. The Medical Center focuses on health education, including topics such as gender issues, sexual health, and reproductive health, all handled with confidentiality. If necessary, a positive psychological approach and clinical support are available. Additionally, various faculties of East West University organize seminars on health education.
