Load Test for Online Advising Portal

The Online Advising portal <http://portal.ewubd.edu/> has been up and running for test. It is important that all students conduct a load test to see how the software performs at its peak before putting software on live.

With that in mind all students are hereby requested to conduct the course advising on test basis as per the following schedule to simulate a surge into the system:

Date	Time	Credits
Schedule-1 (2 nd May)	9:00 am – 1:00 pm	50 & above
Schedule-2 (2 nd May)	2:00 pm – 6:00 pm	Up to 49

We will greatly appreciate your active participation in the load test to make it a success.

Should you encounter any issue, please send an email along with problem description, screen-shot and your contact number to helpdesk.swd@ewubd.edu.

With the kind approval of the Vice Chancellor this is for information and necessary action by all concerned.
